Subject: EMD Chemicals, Inc. GLP Final Reports # EMD-003 (Deer Tick – Lab) & EMD-004 (Mosquito - Field); Lotion and Pump Spray – Final Report Audits – Additional Dosemitry Data

On 08 November 2006, GLP Final Report Audits were completed for EMD Chemicals, Inc. projects EMD 003.1, EMD 003.2, EMD 004.1 and EMD 004.2. At that time much of the dosemitry data were not included in the final reports and therefore were not audited. Since that time, deadlines had been extended, so the additional data were analyzed and incorporated into the amended final reports. The Study Director (Dr. Scott Carroll) requested that the QAU (Dr. Bill Donahue) audit the data that were included in the amended final reports. The additional dosemitry data were audited by the QAU and the data presented in the final report represent an accurate record of the raw data and the experimental findings. The data were audited on 10 January 2007.
